CASE STUDY

2003 ABC Award of Merit

Corporate headquarters, meat processing and packaging facility for major area supplier of bacon and other smoked meat products.

PROJECT SPECIFICATIONS

- 65,000 total square feet
- Sub-zero warehouse freezers
- Walk-in microwave ovens
- Smoke houses for meat curing
- Corporate offices
- Complete project – 8 months

UNIQUE CHALLENGES

During pre-construction phase, decision was made to change the planned warehouse into the corporate headquarters complete with meat processing equipment. The project grew in complexity to accommodate special meat processing needs. Bon was able to react to changing needs and design and build a facility that is functional as well as attractive.

CLIENT SATISFACTION

"The Design-Build partnership approach which Bon Builders uses allowed Sugarcreek the opportunity to modify our facility as we built to meet our changing production and USDA (United States Food and Drug Administration) needs."

Marty Hosta
Corporate Facilities Manager
