UNIQUE CHALLENGES

From design to breaking ground was only 8 weeks. The goal was to incorporate classroom, offices, gathering, and play areas in an attractive building situated on the 100 acre campus of Ginghamburg Church. On-site water treatment plant was added to service campus requirements

CLIENT SATISFACTION

"This is an extremely functional building that attracts kids...we have over 500 junior high students coming on Friday night and 800 senior high students on Saturday...concerts of over 3,000...it works well"
