CASE STUDY

2004 ABC Award of Excellence

A community consisting of five duplexes for retired priests and a combination Chapel/Day Center. Ten priests live on site, but many come for retreats and stay and worship at the Day Center.

PROJECT SPECIFICATIONS

- 8,160 total square feet
- Each duplex was 980 square feet
- Octagonal-shaped Chapel seated 50
- Commercial kitchen
- Day Center can accommodate six (6) overnight guests
- Complete project – 15 months

UNIQUE CHALLENGES

This was the second project Bon for the church. The first was remodeling and expanding the Lang Estate. This project required a central well and septic system and positioning the development to take advantage of the woods and nature trails on the property. A large porch on the Day Center overlooks the woods for three-season use.

CLIENT SATISFACTION

"Our resident priests have been extremely pleased with the functionality and quality of their units, as well as the amenities afforded them in the chapel and multi-purpose building...our sincere appreciations...for making our dreams a reality."
